

Communications and PR internship

About Alisitas Consultancy

Alisitas Consultancy provides a broad range of security products and services, such as open-source intelligence education, interoperability, security awareness training, threat assessment, safety audits, coordination of innovative EU projects, and high-level policy development.

We believe that security is a dynamic process, wherein dialogue, research and innovation are crucial to improving resilience. Security should include all stakeholders sharing responsibility, from cleaning personnel to bomb squads and managers.

Our mission at Alisitas is to provide the best possible service for our clients, ultimately contributing to safety, resilience, and quality of life in this society.

Our Communication and PR internship

Working as an intern with Alisitas Consultancy presents an ideal opportunity for young professionals to jump from student to working life in a modern security consultancy. We offer an internship with a young start-up company, providing a professional atmosphere with a team of motivated colleagues led by managing director and security expert Alyssa Bladergroen. Additionally, you will gain a unique insight into the seemingly clandestine world of security management.

As a Communication and PR intern, you will receive the chance to work on various projects such as the Alisitas Instagram or the branding of our own Alisitas Academy. You will be the creative brain of our PR, create new content series for our website, and support other internal activities aimed at bringing our brand (Alisitas consultancy and Alisitas Academy) to the public worldwide, all this with your input of course.

In addition, you can broaden your professional network by communicating with academics, public and private partners (e. g., universities, law enforcement, and airports) and creating interactive content for an audience of open-source intelligence enthusiasts. Next to providing a demanding environment for your creative development, this internship lets you contribute to fighting terrorism and crime: Make the world a better place from the safety of your home office!
